It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

## INTRODUCTION

**T**HE Years 1675 and 1676, will ever fill a gloomy Page in New England History, and be equally memorable for the desperate but ineffectual Efforts of its primitive People, to rid their Country of its European Inhabitants, and the efficient Measures adopted by the latter, against the Chances of future Hostilities.

The Details of these Events, have come down to us in the Narratives of several prominent Actors in them, and from them, we have been made familiar with the Scenes of Atrocity which distinguished the several Combatants in this War of mutual Extermination; but in none of these Accounts do we find Evidence of that earnest Desire to render a strictly impartial Statement of Events, which alone constitutes the highest Aim of History, and claims our strongest Regard. The Writers of these Nar-

atives, in their active Sympathies for the one Party, have scarcely been willing to concede either Justice or Honor to the other. The Indian Leader who acted so prominent a Part in this War, is represented as a Monster in Iniquity, incapable alike of Generosity or Sympathy, waging an unprovoked and aggressive War upon inoffensive Settlers, violating the most solemn Engagement of Treaties, and wantonly butchering those who had extended to him the kindest Offices of Friendship.

The Account of the Origin of this War, given in the following Pages, is believed to be the only one that has been printed, in which a cotemporary Writer has appeared anxious to represent in a favorable Light, the Injuries that provoked the Natives to Acts of Hostility, or to concede to them Motives of Honor and Equity in previous Attempts to adjust the Grounds of Dispute without a final Resort to Arms.

The Government of Rhode Island, of which Mr. Easton was a Member, had been excluded from the Union of the New England Colonies, on account of her heretical Toleration of religious Freedom, and her open Advocacy of that Liberty of Conscience

which has since become a distinguishing Feature of our Government. Her Territory was invaded by armed Forces without previous Notification or Consent, and her Magistrates seized and carried to Prisons beyond her Borders, for presuming to question the Right of these informal Inroads upon her Soil.

The Boundary between Connecticut and Rhode Island, was at this Time a Subject of Dispute, and upon it depended the Question of separate Existence, to the greater Part of the latter. This Controversy had excited a Feeling of Alienation between the two Colonies, as had a similar Question between the former and New York, and in some Degree prevented a cordial Coöperation, in Measures tending to the common Welfare of the English Colonies: This may perhaps have influenced the Writer of the following Narrative, in his Desire to prove that the Complaints of the Indians might have been peaceably settled, and that the immediate Cause of the War arose from the Indiscretion of their Neighbors. Whatever Weight this Motive may have had, there is found nothing either in the Narrative itself, or the Evidence of other Writers, to lead us to question

the Accuracy of the Facts therein stated, or to doubt that the Grievances complained of, were fully as real as by them represented.

Slighter Grounds of Difference between civilized Nations have often sooner led to open War, and we may perhaps find in this Case, no other Reason for patient Forbearance under continued Wrongs, than the Fact that the Indians were dependent upon the Whites for the Means of commencing and prosecuting Hostilities, and were without those Facilities for Consultation and Coöperation which Education alone confers.

Prompted by that inherent Sense of Equality which has often led them to share equally with their Prisoners, the last Morsel of Food, the Indians had cheerfully given to the first Colonists a liberal Share of their Lands, and had not only supplied them with Provisions when they would otherwise have starved, but had taught them the Method of cultivating Corn, and the Time and Mode of catching Fish, which preserved them from Extremities to which there would have been no other Relief.<sup>1</sup> Thus favored and assisted, the Colonists at Peace

with the native Tribes rapidly multiplied, and their Fields everywhere extended along the Valleys and over the Plains that had been the Haunts and the Homes of the primitive Owners. During more than fifty Years, they had been gaining steadily upon the Wilderness, and the Indians had proportionably wasted away, deriving few and doubtful Benefits from Civilization, but becoming daily more degraded by its Vices, and more dependent upon its Arts for the Means of Existence.

Massasoit, the chief Sachem of the Wampanoags, had been the early and constant Friend of the Whites, and towards the Close of his Life had taken his two Sons, upon whom his Authority was to descend, to a principal Settler to make them pledge their continued Friendship to the English. Alexander, the elder of these Brothers, was a few Years after summoned to appear and answer to Charges made against him upon Suspicion that he was plotting the Destruction of the Settlers; but not obeying promptly, he was surprised at an unguarded Moment, and taken towards Plymouth. Exasperated at this Treatment, he fell sick, was released

under the Pledge of Hostages, but died on his Way Home.

The chief Authority devolved upon Metacom,<sup>1</sup> better known as Philip, on the Death of his Brother, and whatever may have been his early Feeling towards the English, there can be no Doubt that from this Period he harbored a secret Resolution of Vengeance, although Policy led him for a Season to conceal his Purpose under a Cloak of Friendship, and even to consent to repeated Renewals of the Treaties of Amity, which his Father had made.

With this Design he visited many Indian Tribes, portrayed in eloquent Language the steady Encroachments of the Settlers, reminded them of their ancient Power now rapidly wasting away, and invoked them by the Love of Country and Kindred, the Memory of their Forefathers, and their Duty to Posterity, to unite in driving from the Land these dangerous Rivals, whose past Encroachments foreshadowed the rapid and complete Destruction of their Race.

The Magnitude of this Enterprize, and the evi-

der Success with which he privately advanced in its Arrangement, bespeaks a Mind capable of the most comprehensive Generalization, while his future Course proved him the Owner of Talents equal to the most pressing Emergencies that might arise in the Execution of its Details.

His Taçt in enlisting the Narragansetts, the hereditary Enemies of his Tribe, in the general Scheme which he had formed, indicates the Possession of a fair Degree of diplomatic Skill, and a thorough Knowledge of the human Character.

The Circumstances attending the Conference related in the following Narrative, are particularly interesting, as showing the Wrongs which had for Years been practiced upon the unsuspecting Natives, and the lively Sense of Injustice which these Injuries had awakened. The simple confiding Ignorance of these untutored Sons of Nature, had led them on from one Concession to another, until they were brought to a forcible Realization of the Value of Land, by a pressing Sense of its Want, and found themselves in almost as feeble and dependent a Condition, as were the English upon their first Arrival.

There is something peculiarly refined and elevated in the Sentiment expressed by Philip, in answer to their Remark, that the Whites were now too strong for the Indians, when he replied, *that then the English should do to them, as they did, when they were too strong for the English.* In this was expressed the Spirit of that most sacred Injunction of Scripture, that "all Things whatsoever ye would that Men should do to you, do ye even so to them," with all the additional Obligation that a previous Performance of this Duty could impose.

His Plans, it is said, had been laid with Reference to their Development in the Spring of 1676, but were prematurely hastened by the Death of Sassamon, and the Executions which followed.

Perhaps fearing that he might be selected as the next Victim, Philip kept himself surrounded by his armed Followers, and finally yielding to their Impatience for Plunder, allowed them to commit Depredations. These by provoking an Attack from the Whites, relieved him from the Superstitious dread which he is said to have entertained of beginning the War, and active Hostilities quickly followed.

The first Attack was made at Swansea upon People returning from public Worship. A Body of Troops arriving soon after, were fired upon, and one of the Party killed. The Indians fled, marking their Course by burning Houses, and fixing on Poles the Heads of those they had slain; but being pressed by the Troops, Philip left Mount Hope and retired to a Swamp at Pocasset, where he succeeded in repelling the English and killing sixteen of their Number.

Learning that his Enemy was preparing to guard every Exit from the Swamp and thus reduce him to Starvation, he escaped towards the Nipmucks in Worcester County, pursued by People of Rehoboth and Providence. The Indians continued to hang upon the Outskirts of the Settlements in small Parties, committing frequent Murders, and generally evading Pursuit. Being intimately acquainted with every Locality, they could easily fall upon an unguarded Hamlet, murder its Inmates, and escape before an Alarm could be raised, or a Force collected. Mendon, Brookfield, Deerfield, Hadley, Northfield, Hatfield, Northampton and Springfield, became in Turn the Scene of desperate Encounters, in which

Fortune favored sometimes one and at other Times the other Party. Philip, who was generally present in these Engagements to direct his Men, evinced a Boldness mingled with Caution, that defied the utmost Efforts of the English to gain any signal Advantage.

It being no longer doubted that the Narragansetts were in secret Alliance with Philip, War was declared against them by the Commissioners of the United Colonies in November, and in December an Army of from fifteen hundred to two thousand Men, including Volunteers, Indians and a Troop of Horse, the whole under the Command of General Winslow, assembled in the Neighborhood of the Enemy. The Indians, under Philip, were located on an Island in a Swamp in South Kingston, Rhode Island, and had surrounded their Camp with Palisades and an almost impenetrable Hedge of fallen Trees, with their Tops pointing outwards. Within this Inclosure, the Indians had gathered with their Families to the Number of three thousand, comfortably supplied with Provisions and armed with Bows and Arrows, Muskets and Tomahawks.

Here, on the 18th of December, was fought the

most bloody Battle recorded in the early Annals of New England, in which seven hundred Indian Warriors were slain and three hundred wounded ; three hundred more and as many Women and Children taken Prisoners. The Number of Women and Children that perished in the Flames was never known. The English lost six Captains and eighty Men in killed and one hundred and fifty in wounded.

The Weather was intensely cold, and the English suffered extremely from Cold and Fatigue while traveling in deep Snows. Philip fled, and is supposed to have passed the Winter upon the western Borders of Massachusetts. The Winter was remarkably mild, and upon the Hudson River opening unexpectedly in February, the Governor of New York sent up several Sloops laden with Soldiers and military Stores, to resist any Attack which Philip might make in that Quarter. Sudbury, Lancaster and Medfield were attacked in February.

The Spring opened with renewed Hostilities, and Parts of Groton, Marlborough, Warwick, Rehoboth and Providence were burned. A memorable Engagement occurred in Rehoboth, on the

26th of March, known as the "Pierce Fight," in which Capt. Michael Pierce, of Scituate, at the Head of a Band of 63 English and a few friendly Indians, was led into an Ambuscade, in which 53 English and 10 of their Indian Allies were slain on the Spot, but not without destroying several Times this Number of their Enemies.

The Indians scattering in small Parties, were enabled to distract the Attention of the English Forces by simultaneous Attacks in different Quarters. In March, a Body of Volunteers from Connecticut, succeeded in capturing Conanchet, Sachem of the Narragansetts, who was scarcely less formidable than Philip, and Expeditions upon the Strongholds of the Indians were constantly reducing their Numbers and rendering their Prospects more gloomy.

On the 18th of May, Capt. Turner, with 180 Men, surprised a large Party of Indians at the great Falls in the Connecticut River, above Deerfield. They found the Camp entirely unguarded, and slew great Numbers, while others rushed into the River, only to meet a watery Grave. The English lost but one, while the Indians afterwards admitted the Loss of 300 Men in killed and drowned, some of

the principal Sachems. In returning, the English in their turn experienced heavy Reverses at the Hands of another Lodge of Indians, in which Capt. Turner was killed, and before reaching Hatfield, their Numbers were reduced to thirty-eight Men.

The Slaughter at the Falls proved a death Blow to the Hopes of Philip, and from this Time Misfortunes closed thickly upon him. There still, however, remained sufficient Force to seriously annoy the Settlements. On the 30th of May, six or seven hundred Indians invaded Hatfield, burned several Houses without the Fortification, and killed five Men, but were repulsed with the Loss of five Times this Number.

On the Morning of the 12th of June, about seven hundred Indians made a furious Assault upon Hadley, and the Inhabitants were thrown into great Confusion and Alarm. The Indians succeeded in forcing the Palisades and gaining Possession of one House, but were beaten back with Loss. Suddenly, a Man of noble Mien, peculiar in Dress, venerable in Appearance and manifestly familiar with military

Affairs, assumed the Command, ordered the English to rally in the Manner best adapted to meet the pressing Emergency, and by his Voice and Example inspired them to new Activity and Courage. Under his Direction the Indians were at length repulsed with Loss, and driven into the Woods. The mysterious Stranger as suddenly disappeared, and it was long reported and believed that an Angel from Heaven had led them to Victory. It was afterwards found, that this Person was Col. Goffe, the Regicide, who had for fifteen Years, with Whalley his Father-in-law, been concealed in the Colony, and who was then living in strict Seclusion in the Family of Mr. Russell the Minister.

The Indians began to lose their Courage with these Failures, and their Attacks were thenceforth made with less Bravery. They also found new Enemies in the Mohawks of New York, who willingly listened to Propositions from the English to engage in a War against the eastern Indians. They did this the more readily, from having discovered an Act of Treachery on the Part of Philip.

A Party of 200 Indians, on their Way westward from the Connecticut, was surprised in the present

Town of Stockbridge, of whom about sixty were killed and taken, with the Loss of but one Man.

Thus repulsed from the Connecticut, Philip returned to the Plymouth Colony, still following out his Purpose of Extermination, but daily losing his Counselors and Friends, his Captains and Warriors. He continued to struggle against Fate, and to gather new Energies from the Desperation into which his Affairs were plunged. His Wife and Children were seized or killed, and many of his Followers gave up in Despair and threw themselves upon the Mercy of the English. Retiring to Mount Hope, his former Residence, he took Refuge in a Swamp with about two hundred of his Men. Some Time before he had slain one of his Followers, who presumed to propose Submission to the English, and the Brother of this Indian, in Revenge betrayed the Secret of his Retreat. Captain Benjamin Church, who had been distinguished throughout the War for his Courage and Success, surrounded the Swamp on the 12th of August, 1676, and but sixty of the Indians escaped. Philip was shot by an Indian and fell with his Face in the Mud. His Head was cut off and exhibited as a Trophy.

At Annawan, his principal Captain, was taken August 28th, in Rehoboth, which ended the War in this Section of New England, although Hostilities continued one or two Years later, in the northeastern Part of the Colonies.

The Indians, everywhere broken and scattered, either submitted to such Terms as the English might dictate or removed North and joined the French in Canada; and the exhausted Colonies were left to a realization of the Ravages which this vindictive War had occasioned. Famine would have followed close upon the Miseries of the Torch and Tomahawk, but for timely Charities from Dublin and London, obtained through the Letters of Dr. Increase Mather. One eleventh of the able bodied Men of New England are said to have been slain during these two Years, and according to another Writer, almost every Person in the two Colonies, had lost a Relation or near Friend, so that every Family was in deep Mourning.

We have already alluded to the Jealousies then existing between New York and Connecticut, on account of disputed Boundaries. The first News of Indian Hostilities, naturally filled the Country

with an Alarm which was frequently renewed during the Progress of the War, as Rumors of projected Massacres, magnified by the Fears of the Timid or the Exposed, were circulated among the Settlers or reported to the Governor. Although the Province of New York escaped the Calamities which fell upon the New England Colonies, the occasional Intercourse of its Indians with those to the Eastward, especially the tributary Dependence in which the Tribes upon the east End of Long Island were held by the Narragansetts, gave just Reason to suspect that these Indians might be in secret Alliance with their powerful Masters, and justified the Measures that were adopted for their Security.

A prominent Source of Irritation between New England and New York, arose from the Charges publicly made by the former, that the hostile Indians were supplied with Powder and Arms by the latter. The Documents which follow, exhibit the Grounds upon which this Allegation was made, and the Spirit with which it was repelled. They also prove that the Indians were in some Degree at least assisted by the French in Canada, with whom the English were then nominally at Peace.

The Government of New York pursued an un-deviating Line of Policy with regard to the Indians within her Borders, and claimed at all Times the exclusive Management of their Affairs; asserting sometimes rudely, at other Times respectfully, but always firmly, her sole Right of negotiating with them. Every Attempt of the neighboring Colonies to treat with the New York Indians, for Aid against the eastern and northern Tribes, was met with a prompt Refusal, unless conducted in the Presence of the Governor or his authorized Agents.

This Policy, and the Grounds upon which it was based, were not understood by those who had Occasion to deal with these Indians, and the unpleasant Feeling which followed the Failure of informal Attempts at Negotiation, has in some Degree influenced the public Mind, and imparted to the historic Page a Tinge of Prejudice against the Conduct of New York, which is by no means deserved. A careful Study of these Documents will convince the Reader, that whenever proper Courtesy was shown to New York in these Transactions, the Subject of Request received proper Attention.

The warlike Mohawks needed but slight Entreaty

to engage in a Pursuit so congenial to their Tastes, and had Hostilities continued, would doubtless have aided in an effectual Manner, in the War against Philip. Indeed upon several Occasions after the Peace, they made Inroads upon the Christian Indians of Natick and other Villages, mistaking them for the late Enemies to the English; and it became necessary to explain to them that their Services were not further needed, and to dissuade them from Hunting in that Quarter, lest they might injure the friendly Natives.

The rude and unadorned Style and Language of these Documents afford an interesting View of the Period and the Events to which they relate, and we are enabled to catch a Glimpse of the Manners of the Age, the Relations existing between the Whites and the Indians, the Hopes and Fears of the Colonists, and the Light in which these Events were regarded by the Government of New York, more satisfactorily perhaps than could have been done by any other Means. Should they in any Degree answer this Purpose, the Object of their Publication will be accomplished.

A RELATION

*TRUE Relation of what I know  
of Reports & my Understanding  
concerning the Beginning & Pro-  
gress of the War now between the  
English and the Indians.*

In the Winter in the Year 1674, an Indian was found dead, and by a Coroner's Inquest of Plimouth

<sup>1</sup> JOHN EASTON, the Author of this Account, was the Son of Nicholas Easton, who emigrated to New England with his Sons Peter and John, in the Spring of 1634, and settled at Ipswich. He subsequently removed to Newburgh, and then to Hampton, where he built the first English House. In 1638 he removed to Rhode Island, on account of the religious Intolerance he experienced, as a Quaker, and the second Year after

Colony iudged murdered.<sup>1</sup> He was found dead in a Hole thro Ice broken in a Pond<sup>2</sup> with his Gun and sum Foulls by him. Sum English suposed him thrown in, sum Indians y<sup>t</sup> I iudged intelegabell and impartiall in y<sup>e</sup> Cafe did think he fell in and was so drowned, and that the Ies did hurt his Throat, as the English said it was cut;<sup>3</sup> but ac-

settled at Newport, where he also built the first House. In 1641 this was burned by the Indians setting Fire on his Lands. In 1640 and 1653 he was chosen an Assistant, and from 1650 to 1652, and in 1654, he was President under the first colonial Charter. From 1672 to 1674 he held the Office of Governor, and died at Newport in 1675.

His Son John Easton, held the Office of Attorney General of Rhode Island fifteen Years between 1652 and 1675, was Deputy Governor in 1674-1675; was several Times an Assistant, and from 1690 to 1695 he was elected Governor. He died at Newport, Dec. 12, 1705, aged 88 Years, and was buried in the Coddington burial Place. *Callender's Discourse*, p. 125, 148: *Peterfon's Hist. R. I.*—Ed.

<sup>1</sup> He was first buried by his Friends, without an Investigation, but David, a Tetticut Indian, having noticed some Bruises about the Head, reported to some English and the Governor of Plymouth ordered an Inquest. This proved that sufficient Injuries had been received to cause Death without drowning. An Indian also acknowledged, that while standing on a Hill near the Pond, he saw the Murder committed, but being fearful for his own Life, at first was unwilling to disclose it. *Bayley's Plymouth*, ii, 27.—Ed.

<sup>1</sup> This Indian was JOHN SASSAMON, alias *Waffafamon*, of the Maffachufetts Tribe, who had been converted to Chriftianity and received a partial Courfe of Inftitution at Harvard College. Being well acquainted with the Englifh Language, and able to read and write, he was employed as a Teacher at Natick. Renouncing his Faith, he went to refide with Alexander, Philip's Brother, and afterwards with Philip, where his Learning made him ufeul as a Secretary. He thus had the Means of becoming thoroughly acquainted with the Sachem and his Plans.

Incurring the Difpleafure of his Employer, or yielding to the Sollicitations of his Friend and Inftuctor the venerable Eliot, he returned to Natick, where, upon Professions of

Repentance, he was again baptized, received into the Church, and employed as an Inftuctor. Being frequently with his Countrymen, he gained a full Knowledge of the hostile Feeling that was rapidly spreading among them, and going to Plymouth he imparted this Information to the Governor.

This Advice was at firft difregarded, but Circumftances foon occurred to ftrengthen his Statement, and Philip with feveral of his Indians were examined, but without gaining any new Proof of the Allegation. They were accordingly difmiffed, under ftrong Suspitions, and Saffamon difappeared foon after. <sup>1</sup> TOBIAS, alias *Poggapanosfoo*, one of Philip's Counsellors, his Son, and *Mattabinnamy*, were apprehended and tried by a Jury consisting of four Indians and twelve Whites. On the 8th of June, 1675, two of them were hung, and a few Days after the third was shot, at Plymouth, one of them, before his Execution, confessing the Murder, but the others denying it to the last. One of the absurd Grounds of Evidence that influenced the Jury is thus related by Dr. Increase Mather: "When Tobias (the suspected Murderer) came near the dead Body, it fell a

<sup>1</sup> Strong Suspicious of Indian Hostilities had arisen in the Spring of 1671, occasioned by warlike Preparations on the Part of Philip and Men on Account of some Injury alleged to have been done to his planting Ground. The Massachusetts Government, anxious to preserve Peace, sent Agents to mediate between the Parties, and on the 12th of April a Conference was obtained at the Meeting House in Taunton. Philip represented that his Preparations were designed to protect himself from the Narragansetts, but on its being shown that his Relations with that Tribe were never more friendly, he acknowledged the Charges and signed a Covenant in which

he agreed to remain friendly to the Colonists, and to deliver up to the Government of New Plymouth all his English Arms, to be kept by them for their Security so long as they might see Reason. *Hubbard, Mather, Hutchinson, Bayley, &c.* Another Conference was held in September of the same Year. <sup>1</sup> No other Historian of this War has given an Account of this Negotiation. The Relations existing between the Indians and the Government of Rhode Island, had been friendly from the Beginning, and all the Engagements on the Part of the English had been fulfilled with scrupulous Exactness. Mr. Roger Williams relates that he had obtained by Love and Favor the Title of Rhode Island, which could not have been purchased by Price or Money, and that the Indians, always shy and jealous of selling their Lands, chose rather to make a Grant of them to such as they esteemed. The Gratuities however expected in return, often made these Gifts a very dear Bargain. *Callender's Discourse*, 85,

It is said that shortly before the War of 1675 began, the Governor of Massachusetts sent to inquire of Philip why he would war upon the English, and to request him to enter into a Treaty. The Sachem replied: "Your Governor is but a Subject of King Charles of England; I shall not treat with a Subject. I shall treat of Peace only with the King my Brother. When he comes I am ready." *Old Indian Chronicle*, 68. The Respect and Confidence which the People of Rhode Island had acquired with the Indians, secured a Hearing for their pacific Overtures on the above Occasion, at a Time when probably no other English could have safely solicited an Interview,—ED.

English roned them. We said we knew the English said the Indians roned them, and the Indians said the English roned them, but our Defer was the Quarrell might rightly be desided, in the best Way, and not as Dogs desided their Quarrells. The Indians owned y<sup>t</sup> fighting was the worst Way; then they propounded how Right might take Place. We said, by Arbitration. They said that all English agreed against them, and so by Arbitration they had had much Rong; mani Miles square of Land so taken from them, for English wold have English Arbitrators; and once they were persuaded to give in their Armes, y<sup>t</sup> thereby Jealousy might be removed,<sup>1</sup> and the English having

<sup>1</sup>The Conference at Taunton, April 12, 1671, is here referred to. All the Arms which Philip's Men had with them on that Occasion were given up, and they agreed to bring in the Remainder at Plymouth by a certain Time. But this for some Reason was not done. The Government at Boston being looked to as an Umpire, a Complaint was made to them by the Colony of New Plymouth. Philip appeared in Person, and by his plausible Address quieted all Apprehensions, and proposed that Commissioners from the severall United Colonies should meet at Plymouth for a Discussion and Settlement of the existing Differences. This Meeting occurred Sept. 29th, 1671, and "Philip again acknowledged his Offence, and was appointed to give a Sum of Money to defray the Charges which his insolent Clamors had put the Colony unto." *Matber's Relation*, 73. The Sum agreed upon, as stated in the Text, was £100, payable in three Years. He also agreed

<sup>1</sup> The Indians of New England were first taught the Use of Fire-arms by Thomas Morton, an unprincipled and dangerous Adventurer, who came over with Captain Wollaston in 1622, in the Capacity of a Servant, and settled in the present Town of Quincy. In the Absence of Wollaston he succeeded in persuading his Associates to throw off all Obligation to their Master, and they fell into the most riotous

Excesses. The neighboring Settlements becoming alarmed, united in suppressing this Nuisance, and Morton was sent a Prisoner to England in 1628. *Bradford's Hist. of Plymouth Plantation*, 238. At the Time of Philip's War, the Use of Fire-arms had become general among the Indians throughout New England, mostly superceding the primitive Weapons of the Natives, and forming an indispensable Means of Success in Hunting.—ED.

<sup>1</sup> Massasoit, the Father of Philip, and Chief of the Wampanogus, at the Time of the Arrival of the English at Plymouth, dwelt at Sowams, in the present Town of Warren, R. This Tribe, with others of New England, had a few Years before been greatly reduced by an Epidemic. The Dominion of Massasoit extended over nearly

all the southern Part of Massachusetts, from Cape Cod to Narragansett Bay. Note to *Bradford's Hist. of Plymouth Plantation*, p. 94. So greatly were the Settlers of Plymouth reduced by Sickness and Famine, in the early Years of their Residence, that they must have fallen an easy Prey to any concealed Plan of Hostilities. <sup>1</sup> Alexander, alias Wamsutta the elder Son of Massasoit, succeeded to his Authority upon the Death of the latter in the Winter of 1661-2. He had married Weetamoo, Squaw-Sachem of Pocasset, and thus extended his Influence with the Natives. From his Conduct in 1662, towards the Narragansetts his ancient Enemies, Suspicions were raised that he might be plotting Mischief against the English, and the Governor of Plymouth appointed Captain Willet, who lived near the Residence of Alexander, to desire him to attend the next Court at Plymouth, which

he agreed to do. He failed to attend, and Circumstances appearing to confirm the Reports, Major Winslow was ordered to bring him before them by Force. This Party surprised the Sachem and about eighty of his Men, and having secured their Arms made known their Instructions. He at first "fell into a raging Passion at this Surprise, saying that the Governor had no Reason to credit Rumors, or to send for him in such a Way, nor would he go to Plymouth but when he saw Cause." <sup>1</sup> The Execution of the alleged Murderers of Sassamon, greatly irritated the Indians, insomuch that Philip, sending the Wives and Children of his Tribe for Protection to the Narragansetts, allowed his young Men to commence Aggressions by killing the Cattle and

<sup>1</sup> An Account printed soon after this War in London, and republished in Boston in 1836, with others under the Title of the *Old Indian Chronicle*, gives the following Version of this Event. "By this Time the Indians have killed several of our Men, but the first that was killed was June 23, a Man at Swansey; that he and his Family had left his House amongst the Rest of the Inhabitants, and adventuring with his Wife and Son (about twenty Years old) to go to his House to fetch them Corp, and such like Things (he having just before sent his Wife and

Son away), as he was going out of the House was set on and shot by Indians. His Wife being not far off, heard the Guns go off, went back," and fell into their Hands. Dishonored and afterwards scalped by them, she immediately died, and her Son was at the same Time scalped. "They also the next Day killed six or seven Men at Swansey, and two more at one of the Garrisons; and as two Men went out of one of the Garrisons to draw a Bucket of Water, they were shot and carried away." *Drake's Book of the Indians*, 209.—Ed.

Her Residence was on a Peninsula on the northeast Side of Narraganset Bay, opposite the Island of Rhode Island, and now chiefly included in the Town of Compton, R. I. A few Days before the War commenced, Philip sent six of his Warriors to invite her to join him in it. Mr. Benjamin Church, who afterwards acted a conspicuous Part in the War, and who had lived with his Family a Year in the midst of her People, induced her to decline the Invitation and to consent to place herself under the Protection of the English. He advised her to pass over to Rhode Island for Security, and proceeded to Plymouth to make Arrangements according to this Agreement. He arrived June 7, but was prevented from returning by the Outbreak of Hostilities, and the good-hearted Awaslonks was constrained, though reluctantly, to join Philip. *Drake's Book of the Indians*, 249; *Bayley's Plymouth*, ii, 28, 32. *Church*.—ED.

<sup>1</sup> The Assistance which Awashons rendered to Philip was more from Fear or Policy than from Inclination. She and her People appear to have spent the Winter with the Enemy on the Frontiers of Massachusetts, and in June, 1676,

through the Influence of Mr. Benjamin Church, friendly Relations were restored between her and the English. She offered to join her Forces with those of the Colonists against the Enemies of the latter, on Condition that she and all of her Warriors with their Wives should have their Lives spared, and that none of them should be transported out of the Country. This Treaty was never afterwards broken. About the Year 1700 there were one hundred Men of this Tribe, and about 1760, a mortal Fever swept off many. A Remnant was living in Compton in 1803. *Drake's Book of the Indians*, 252.—Ed.

After the English Army, without our Consent or informing us, came into our Colony, brought the Narraganset Indians to Articles of Agreement to them.<sup>1</sup> Philip being dead, about a 150 Indians came in to a Plymouth Garrison volentarily. Plymouth Authority sold all for Slaves (but about six of them) to be carried out of the Country.<sup>2</sup> It is

<sup>1</sup> The Massachusetts Government had given Orders for their Troops to proceed to the Narragansett Country and prevent any Aid being rendered by them to Philip. Part of the Country occupied by these Indians was found abandoned, and several Days elapsed before they met with any Indians with whom to treat. At length four Men were found, whom the English styled Sachems, and a Treaty in the Name of the whole Tribe, secured by Hostages, and most humiliating in its Conditions, was drawn up, and signed on the 15th of July, 1675. This Treaty was held at Pettyquamscott, now Narrow River. By this Agreement, the Narragansetts were bound to the impossible Talk of seizing all and every of Philip's Subjects, and bringing them dead or alive to the English; they were to kill them wherever

found, and to restore all stolen Goods. A large Reward was promised for Philip delivered alive, or for his Head if slain. *Bayley's Plymouth*, ii, 48; *Drake's Book of Indians*, 211.—Ed.

<sup>2</sup> Soon after the Destruction of Dartmouth, a Party of Indians who had not been concerned in the Outrage, were induced to surrender through Persuasion and Promises and were taken to Plymouth where the Government ordered the whole, to the Number of about one hundred and sixty, to be sold as Slaves. *Bayley's Plymouth*, ii, 47. "In the beginning of the War, Capt. Mosely captured eighty who were confined at Plymouth. In September following, one hundred and eighty Captives were put on board a Vessel commanded by Captain Sprague;

<sup>1</sup> While this Reputation of Forbearance from Cruelties on the Part of the Indians is scarcely sustained by the Evidence of cotemporary Records, that of Barbarity to the Indian Prisoners by the English is abundantly proven. The War was upon both Sides one of Extermina-

tion, and in their Eagernes to accomplish this Purpose, friendly Indians and those who had surrendered themselves under Pledges of Protection were in several Cases massacred. In September, 1675, an Indian Prisoner was executed in Boston, to appease the Fury of the Mob, "in a Manner so revolting, that were the Truth alone related, the Reader's Belief might be confounded." *Drake's Boston*, 410.—Ed.

But I am confident it wold be best for the English and Indians y<sup>t</sup> a Peas wear made upone oneft Terems, for each to have a dew Propriety and to enioy it without Opretion or Iufurpation by one to the other, but the English dear not trust the Indian's Promises, nether the Indians to the Englishes Promises; and each have gret Case therefor. I see no Way likely, but if a Seflation from Arems might be procured untill it might be known what Terems King Charles wold propound; for we have gret Case to think the Naroganfet Kings wold trust our King, and y<sup>t</sup> thay wold have acsepted him to be Umpier if it had bine tendered, about ani Diferanc; for we do kno the English have had much

Engagement the Indians lost over 700, and of the English 80 were killed and 150 wounded. (See *Coll. R. I. Hist. The Share taken by Rhode Island in this War is thus stated by Callender: "As to the Part this Colony had in that War, it must be observed that though the Colony was not, as they ought to have been, consulted, yet they not only afforded Shelter and Protection to the flying English, who deserted from many of the neighboring Plantations in Plymouth Colony, and were kindly received by the Inhabitants, and relieved and allowed to plant the next Year on their Commons for their Support; but they likewise furnished some of the Forces with Provisions and Transports." *Hist. Discourse*, 133.—ED.

Contention against these Indians to invade the king's Determination for Naroganset to be in our Colony; and we have Cause to think y<sup>t</sup> was the great Cause of the war against them.

I see no Menes likely to prevent a Sedition from Arems, except the Gouevner of New York can find a Way so to interfere, and so it will be likely a Peace may be made without troubling our King; not but it always hath been a Principell in our Colony, y<sup>t</sup> there should be but one supreme to English Men, and in our native Country where ever English have Jurisdiction; and so we know no English should begin a War and not first tender for the King to be Umpire, and not persecute such y<sup>t</sup> cannot conform to their Worship; and their Worship be what is not owned by the King, the King not to mind to have such Things redressed, sum may take it that he hath not Power, and that there may be a Way for them to take Power in Opposition to him.<sup>1</sup> I am so persuaded of New England Priests,

[Orders, Warrants, Letters, ii, 461.]

SR This Opportunity presenting, I was willing  
to give you Notice of y<sup>e</sup> Apprehension some  
Persons at y<sup>e</sup> east End of Long Island have of Com-  
ocons like to arise by their Indians and yo<sup>r</sup>s of the  
Narragansett, sett on by their Sachem Ninicraft,  
against the English.<sup>1</sup> A Copy of some Passages in a

<sup>1</sup> Apprehensions of Indian Hostilities, appear to have been entertained in Rhode Island at this Period. Ninicraft was charged with detaining some Indian Servants of Thomas Torrey of Block Island, and on the

Letter sent expresse from thence to mee, I heret inclosed send you. For my Part I can not thinke them in a Condicon strong enough to make any such bould Attempt. Whatsoever their Will may bee, however, its Good to be cercumspect and to provide against the Worst. I shall desire you would make Enquiry into y<sup>e</sup> Matter, and send mee yor Opinion of it by y<sup>e</sup> First.

It seemes Noncraft hath become an old Enemy to y<sup>e</sup> English so to be suspected. Mr. Thomas Terry,<sup>1</sup> of Block Island, informes mee that he hath had 6 Indyans Servants run away from him, which Noncraft protects and keepes, though none of his Indians. I thinke you may do well to admonish him of it, and that hee ought not to doe the least

20th of July, 1669, a Warrant was issued for his Arrest on Suspicion of a Plot, seven of Philip's ancient Men having been with him nine or ten Days without sufficient Reason. He appeared eight Days after and stated that the Indians had had a great Dance lately, which was an Invocation for a plentiful Harvest. He ascribed the Report of hostile Intentions to a Long Island Indian, and

stated that he had formerly taken Captive their Sachem's Daughter, and obliged them to pay him Tribute. The Sachem and his Daughter were both dead, and the Tribute after some Difficulty, had been lately paid. He was again summoned before the Governor and Council in August, but was dismissed. *Coll. R. *Council Minutes concerning Indian Hostilities.*

[Council Minutes, iii, 44.]

At a Councell July 4th, 1675.

Present, The Governor,  
The Secretary, Capt. Brockholes,  
Mr. J. Laurence, Capt. Dyre.

It is the Opinion of the Councell that Conecticott doth not expect nor desire Assistance from us in Relacon to the Indyan Disturbance at this Time.<sup>1</sup>

Upon due Consideracon of y<sup>e</sup> Intelligence now sent from thence concerning y<sup>e</sup> Indiyans,

<sup>1</sup> At the Time that Indian Hostilities commenced, in June, 1675, the Governor and Council of New York were actively discussing the Question of Boundary, and an Expedition was in Preparation with the View of enforcing the Claims of New York if found expedient. The Patent of the Duke of York was claimed by Andros as extending to the Connecticut, and this Construction was subsequently approved by the Duke of York, but from prudential Reasons its Adjustment was deferred. *Coll. Hist. N.Y.* iii, 235. The Council coinciding with the Governor had passed a Resolution declaring that Disobedience to his Majesty's Pleasure, as signified by Letters Patent, was Rebellion. *Council Minutes*, iii, 42.—  
ED.

Resolved, That y<sup>e</sup> Govern<sup>r</sup> doe proceed on his intended Voyage to Conecticott forthwith, and do take a Force with him, to be in a Capacity to protect that Part of his Royall Highnesse Government, as there may be Occasions.

*A Letter to Mr. THOMAS MAYHEW, or Chief Magistrate at Martin's Vineyard.*

[Warrants, Orders, Passes, iii, 120.]

*Southhold, July the 14<sup>th</sup>, 1675.*

Mr. MAYHEW :

Having Notice of the Irruption of the Indys,

Nantucket, Martha's Vineyard, and the adjacent Islands, as well as the County on the Coast of Maine, eastward of the Kennebec, had been purchased by the Duke of York from the Earl of Stirling, and ~~at this Time~~ Dependencies of the Government of New York. The Country in Maine known as *Pemaquid and its Dependencies*, was transferred to Massachusetts in 1686, on the Accession of the Duke of York to the Throne as James II, and the former Islands were included in the New England Charter in 1692. A local Government had been organized at Nantucket and Martha's Vineyard, under the Direction of a Chief Magistrate in each Island, and a General Court held alternately in one and the other. The De-

cisions of this Court were subject to Appeal to the Governour and Council and to the Court of Assize at New York. Mr. Thomas Mayhew had been appointed Governour of Martha's Vineyard for Life. With such Affiduity and Success ~~had~~ he labored for the Conversion of the Indians upon these Islands, that although much more numerous than the Whites, the latter retained their Friendship without Interruption, and these Islands became an Asylum for many English Families driven from the Main-Land by Philip's War. There is no Evidence that the slightest Disaffection prevailed among the Natives on these Islands during the War. *Nantucket Papers, Albany, 1856.—ED.*

and their barbarous Proceedings against the English, in and on this Side of Plymouth Colony, hath occasioned my hastening to visite these Parts and to take Order in any Thing that may bee wanting for their Security: To which End I am proceeding as farre as South and East Hampton. But lest you and yo<sup>r</sup> Neighbors of Nantuckett bee not furnisht with Ammunicon, and thereby suffer by the said Indyans Irruptions, I have without Delay, despatcht this Sloop<sup>e</sup> w<sup>th</sup> Ammunicon, and to inquire of yo<sup>r</sup> State, to wit, for you one Barrell of Powder, ffifteen Musketts, and foure Skeynes of Match. The which, to bee returned in kinde, to the Stores at New Yorke, when you can with Convenience bee supplyde. I desire you will furnish the Master of the Sloop<sup>e</sup> with a Pilot, or Direcons to Nantuckett, as hee shall have Occasion; And that you will send mee by him, an Acco<sup>t</sup> of the State of all Things with you, in this present Juncture, as to y<sup>e</sup> Strength or Posture of Defence, if any of the said Indyans should attempt to come upon yo<sup>r</sup> Island, that I may take such further Order as may be fitt. *Abstract of a Letter from the Governour  
of Rhode Island to the Governour of New  
York, dated July 21<sup>st</sup>, 1675.*

[New York Colonial MSS, xxiv, 128.]

A great Part is a Relation of severall Passages of the Warre betweene Plymouth Colony and the Indyans, and their own being in a warlike Posture of Defence.

Then relates the coming of an Army from Boston and Connecticut Colonies into their Colony (without informing them thereof) to bring the Indians there to their own Terms, and to call that Part of Roade Isl Colony theirs (viz<sup>t</sup> Kingstoune in the Narrogansfett Country)<sup>1</sup> and having made Terms

<sup>1</sup> The Boundary between Rhode Island and Connecticut was during many Years a Subject of Disagreement and often of angry Dispute, from the conflicting Terms of their respective Charters. In April 1663, Mr. John Winthrop, Agent for the Colony of Connecticut, and Mr. John Clarke, Agent for the Colony of Providence, agreed to refer the Question to Arbitrators, who re-

commended a Line much like the present, as the Boundary. A farther Attempt was made by Commissioners from the two Colonies in November, 1699; but not until May 12, 1703, were these Negotiations finally settled by Articles of Agreement that received the royal Sanction Feb. 8, 1726. *Coll. with the Indians, tooke one Tho. Gould appointed a Conservator of the Peace in Kingstown Prisoner, for questioning whether they should not firstly have informed them of their coming with an Army within that Province, and pinioned him and guarded him, and the next Morne sentenced him to bee sent from Constable to Constable to Connecticut Prison with 8 Horsemen at his own Charge, but afterwards tooke Bayle from him.

And further, those of Connecticut have formerly threatned Force, that we should not use the K's Authority there, and not to maintaine it for the K's Province, as confirmed to us. It intimates their Force was as much therefor as their Pretence ag<sup>t</sup> y<sup>e</sup> Indyans, and we doubt not but we could have prevailed to have brought y<sup>e</sup> Indyans to greater Conformity than they have done by their Armes; and so with Relacon of some Skirmishes with the Indyans take leave.

He died October, 1690. He had a Son Richard, born Oct. 9, 1649, who was early chosen a Magistrate, and retained the Office

until his Death, which occurred Oct. 18, 1699. It is probably the Son that was addressed in the above Letter, *Thompson's Long Island*, ii, 398.—ED.

But I would not have you faile to feize the Indyan Messengers you sent, as soone as you can light on them, and unlesse they can give you a satisfactory Account of their Endeavors that you send them up hither, by the first Convenience, and for others, that you continue the same Care for their Proteccon (being disarmed) and do them Justice upon all Occasions requiring it, of which you may acquaint them againe.

I dispatch this the sooner to you, upon receiving this Night a Paper and Letter from the Eastward, of which I send you Copyes, desiring you'l send forthwith towards *Nesauacke*,<sup>1</sup> to informe yourselve if there hath been any Meeting of the Indyans that Way, as intimated, and that you give Order to Mr. Smith to be careful, and give you Notice if any Thing happen there for the Future; and that you take such Order therein as you shall judge necessary, and give mee Account thereof, if any Thing requiring it.

Sept. 18th, 1673.

This Morning there came to the Governor in the Fort one of the Long Island Sachems that mist yesterday . . . he is of Rockaway<sup>1</sup> or . . . The other . . . Day upon the Newes of . . . He. Here was . . . with Tom . . . and others, and were very well . . . what was done. Yesterday . . . the behalfe of the Rest.

There were also two Sachems from the other Side, one from Hackensack,<sup>2</sup> the other from Tapan, who hearing of the Go<sup>s</sup> Returne from Alb. came to bid him welcome Home and promise all Friendship.

<sup>1</sup> The Rockaway Tribe occupied the southern Part of Hempstead, a Part of Jamaica, and the Whole of Newtown, in Queens Co. *Thompson's Long Island*, i, 94; *Prime's L. I.*, 90.—Ed.

<sup>2</sup> A Number of Hackensack Indians waited upon the Governour July 23d, assuring him that their Hearts were good, and presenting him some Deer Skins. The Governour informed them that he had for the Present taken away the Ca-

noes of the Indians of Long Island, because they had paid Tribute to the Narragansetts. He required of his Visitors some Assurance of their Sincerity: "Thereupon they consent to leave two of their young ones for Hostages, and are very well satisfied. The Go. presents 3 Sachems each with a Coat of Duffels, and gives them each a Dram. Their Compa. was about 50." Presenting them with Bottles of Liquor, they were dismissed. *N. Y. Coll. *A Letter to South'ton and Seataleott.*

[Warrants, Orders, Passes, iii, 133.]

Gent.

I yestarday rec<sup>d</sup> yo<sup>r</sup>s of the 13<sup>th</sup> Instant, so long a coming, (as the Indyan saith) by Reason of the wet Weather. I arrived here on the 9<sup>th</sup> Instant, late, and am sorry to heare that you (as well as the most Part of the Island) have been so alarm'd upon a false Report of our Indyan's ill Intent against us, which I endeavour'd and hope is now rectified, and all Partyes well satisfied and quiet. Some Officers from all the Townes on this side Seataleott, and all the Sachems of Long Island and Neighbourhood on the Maine, having been here with mee since; And although I did hope you would not have been alarm'd, yet I writ to you on the 11<sup>th</sup>, which I hope came well to yo<sup>r</sup> Hands, and satisfide you. The same Night I ordered and sett out a Sloop armed, to cruise in the Sound, and the next Morning went mysele in my Pinnace as farre as Mr. Pells, to the Indyan's there, and from thence to Flushing, and Home by Land, the better to settle people's Mindes.

I now fend you a copy of a Proclamacon, relating to the said Matters, that it may be forthwith put in Execucon, both by you, and the neighbouring Tounes of Southold and Easthampton, to whom you are to fend Copyes attested, and also to communicate this, not having Time to write to them, and unwilling to stay yo<sup>r</sup> expresse Indian. Though I do not apprehend any Danger by the Indyans, yet there shall continue an armed Sloop to ply in the Sound that so, no ill Indyans may have Opportunityes to crofs it at their Pleasure; which Sloop is intended to call at Southold and Easthampton, some Time the next Weeke. And if there should happen any Occasion, more Sloopes shall bee forthwith sent out, as the Matter may require, so that I hope none will have Cause to neglect their lawfull Occasions. Recommending you to bee vigilant, and that I may heare from you, upon all Occasions requiring it, I remaine,

Yo<sup>r</sup> very loving ffriend,

E. ANDROSS.

*Postscript.*

It being Resolved, That the Indyans of the north and west Ridings of Long Island, shall (by Reason of their good Comport and the Season of the Yeare) have their Guns restored to them; you have likewise Liberty to do the same in yo<sup>r</sup> Parts, unlesse you know any of yo<sup>r</sup> Indians not fitt to bee trusted therewith, excepting Easthampton, and Shelter Island, who, having yo<sup>r</sup> Contribucon to the Narrowgansett Indyans, are not to have them for the Present.

sent by the Indyan, Sept. 18, 1675.*

[Warrants, Orders, Passes, iii, 134.]

Sr

I rec<sup>d</sup> yor<sup>s</sup> of the 16<sup>th</sup> the last Night, and am very well satisfyed of yor Care and Justice in Relation to y<sup>e</sup> Indyan, who I finde have not misbehaved themselves, notwithstanding the great Noise, Jealousies and Apprehencons of them, so that the Cause and Instruments thereof ought to bee severely Punisht: However the Indyan to the Eastward, being still strong and active, I have issued forth the Proclamacon herewith sent, the better to satisfy all people's Minds, particularly the Christians, and to keepe a Sloope armed in the Sound, that no ill Indyan may easily crosse it, and shall bee ready to send more upon any Occasion requiring it. I would advise you to be vigilant, though as yet no Cause of Feare, but to continue in being just and protecting yor Indians upon all Occasions.

Had you named those of yor Towne who you seeme to imply to bee troublesome, or exceed their

Bounds towards the Indjans, I would have taken such present Order in it as had been fitting: But you having sufficient Power as a Justice, I do not doubt but you will make Use of it as there is Occasion, and you see Cause.

I sent for Capt. Bayley, and the Officers of more of the other Townes, (as well as Sachems of Long Island and Neighbourhood upon the Maine) have been with mee since my Returne, and all satisfied and well.

The Matter in Consultation was about a Letter brought by an Expreffe from y<sup>e</sup> Island Nantuckett, intimateing their Weaknesse, and great Strength of the Indyans, both on their Island, and Martin's Vineyard, not above 40 Men at y<sup>e</sup> last, and 30 on 1500 Indyans y<sup>e</sup> former, capable of bearing Armes. On Men, Women Nantuckett y<sup>e</sup> Indyan Men 5 or 600; and Children. not so many on Martin's Vineyard.

They desire in their Letter a Couple of great Guns, and halfe a douzen Sould<sup>rs</sup>. They pretend an ill Consequence may arrive upon the Indyans trayning in Armes upon Martin's Vineyard.

Resolved, To send them each a great Gun at y<sup>e</sup> two Islands of Nantucket and Martin's Vineyard, and to each y<sup>e</sup> Proclamation concerning y<sup>e</sup> Indyans of keeping Watches, erecting Block Houses, &c.

Right Hon<sup>ble</sup>.

I and my Men understanding that y<sup>r</sup> Hon<sup>r</sup> was pleased to graunt Liberty to the other Indians to have their Guns restored to them, but a Restraint was imposed vpon vs the Montaakut Indians by Reason of some Compliance we have had w<sup>th</sup> Nenccraft the Narhiggen Sachem, have sent this our Messenger w<sup>th</sup> these few Lines, to intreat your Hon<sup>rs</sup> Fauour towards yo<sup>r</sup> poor Supplicants. Your Hon<sup>r</sup> may vnderstand my Father and Grandfather haue stood always loyall to y<sup>e</sup> English in y<sup>e</sup> Pequot Warrs, now towards 40 Years since . . . Forefather was a great Help to y<sup>e</sup> English, haueing then this whole Island att his Command, and since then upon all Occasions manifested his Faithfulnes to the English; and if any Plots were att any Tyme against them, tymely discovered them; and this is known to many of the English yet alive. And concerning this Plot now on Foot against the Eng-

lish, and yo<sup>r</sup> Hon<sup>r</sup> may be assured (for we speak it before God the Knower of all Hearts) that had we been in the least acquainted w<sup>th</sup> any such Matter, we should haue discouered the same; and though of late Years we have held some Correspondency w<sup>th</sup> Ninecraft, yo<sup>r</sup> Hon<sup>r</sup> may be assured it was onely w<sup>th</sup> respect to our own Security, we being very weak and few in Numbers, and he being great, and having had wofull Experience of the great Defolation he made amongst us while we stood in Termes of Hostility against him. But this we vnderstanding is offensive to yo<sup>r</sup> Hon<sup>r</sup> we shall forbear for the Future, onely entreate yo<sup>r</sup> Hon<sup>r</sup> to take some speedy Course for our Security, that we may not be more hec<sup>t</sup>r'd by the Narheganfits, for our Dependance is wholly upon yo<sup>r</sup> Hon<sup>r</sup> for Protection, as we hope yo<sup>r</sup> Hon<sup>r</sup> shall find us ever loyall Subjects to the King and Duke of Yorke, and to yo<sup>r</sup> Hon<sup>r</sup> and to all Authority vnder you.

Yo<sup>r</sup> Hon<sup>r</sup> may be pleased to take Notice, that 4 of our stoutest Men have been this Tyme of Warre w<sup>th</sup> the English Captaines, and fought vnder them, and helped to doe some Execution vpon their Enemies, and had their free Liberty to returne Home,

being dismissed upon their Desire to retire to their Friends and Relatives, by the Govern<sup>r</sup> at Boston. We leave our selues w<sup>th</sup> yo<sup>r</sup> Hon<sup>r</sup> hoping yo<sup>r</sup> Hon<sup>rs</sup> favourable Acceptation of vs. Now is the vsual Tyme of our Hunting, and to gett a litle Provision and some Skins for Cloathing, and if our humble Request herein may find a gracious Answer, we shall take it as a further Engagem<sup>t</sup> to yo<sup>r</sup> Hon<sup>r</sup> and shall rest

The Lines upon the other Side I wrote vpon the Desire of the Sachem and his Men. They are their own Words, and the Substance thereof they also had expressed before Mr. Backer, but since my writeing of them, w<sup>ch</sup> was almost a Week since, I perceiue that deliuering up their Armes to the Indians doth not relish well w<sup>th</sup> the English, especially since of late we h . . . of the great Slaughter they haue made vp . . . . English in other Parts of the Country. I perceiue at Southampton y<sup>e</sup> English are much troubled, the Indians haue their Armes, and I thinke it doth much disturbe y<sup>e</sup> Spirits of those haue them not. As for these Indians, for my owne Part I doe thinke they are as cordiall Friends to the English as any in y<sup>e</sup> Country, and what is written by y<sup>m</sup> and known by many to be y<sup>e</sup> Truth, though God knows their Hearts as their Counsellor s<sup>d</sup>. Yor Hon<sup>rs</sup> Predecessor wrote severall Letters to me to stirre me vp about instructing the Indians in the Knowledge of God and his Religion, and that he would further and encourage the Busines, so farr as lay in his Power. I doe thinke if yor Hon<sup>r</sup>

be pleased to sett in att this Tyme it may be a good  
Promotion of that Work w<sup>ch</sup> as I haue seen in feve-

Last Night I received yors of ye 6<sup>th</sup> Instant, and am as from the Beginning very sensible of, and much troubled at the Indyans continued Depredations and Successes, and Misery of our Countrymen in those Parts, and have endeavoured not to bee wanting in my Duty, though at the very first slighted and rejected. When I was at Albany, I took the Occasion on a Lett<sup>r</sup> from Major Pinchon<sup>1</sup> to the Command<sup>r</sup> and Commissaryes there to returne him an Answer myselfe, and of my Endeavors, in

<sup>1</sup> JOHN PYNCHON was perhaps more prominent in the public Service of Massachusetts than any other of the earlier Settlers upon the Connecticut River. He came to Springfield when but ten Years old, was a Magistrate fifty Years, and on almost every Commission and Committee, whose Duties he discharged with remarkable Ability and Suc-

cess. He died in 1703, at the Age of seventy-six.

The Pynchon House, the first brick Structure in the Valley, was built in 1660, and torn down in 1831. Its Picture is preserved in the Seal of the City of Springfield.—*Holland's W. Mass.*, i, 44, 162—Ed.

*A Letter to Capt. BROCKHOLES at Albany.*

[Warrants, Orders, Passes, iii, 146.]

Capt. BROCKHOLES :

I long much to have an Accot<sup>t</sup> from you. Yesterday wee had the Newes of Springfield being burnt,<sup>1</sup> and Indyan Strength in those Parts, which evinces the Necessity of yo<sup>r</sup> being carefull in keeping good Guards.

<sup>1</sup> On the Night of October 4th, 1675, an Expreffe was despatched from Windsor, Ct., to Springfield, Mass., with the Intelligence derived from a friendly Indian, that a Party of about 300 of Philip's Warriours were on their Way to burn the Town and destroy the Inhabitants. The Alarm was hastily spread, and the Citizens fled to the fortified Houses, three in Number, with such Valuables and Necessaries as they could carry. On the Morning previous, the Springfield Soldiers, to the Number of 45, had left for Hadley, to join in a Demonstration, concerted against the Enemy at that Place, and a Messenger was sent thither to inform them of the threatened Danger. When the Morning came, no Enemy appearing, two Persons rode forwards toward the Indian Fort, and were shot by the Foe in Ambush. The Town was soon filled by Savages; about thirty Dwellings and twenty-five Barns were burned, besides the Corn and Saw Mill; four or five Persons were wounded, and one Person was killed. The Enemy retired on the Arrival of the military Force that had been recalled, leaving the Settlement in Ruin and the Inhabitants in the greatest Distress near the Verge of Winter. *Holland's Western Mass.* i., 95.—ED.

I have nothing more to add to yor Instructions, but that you order Matters the best you can accordingly, and see that the Maques may see tis friendship, not Apprehension or Need of them, but for their Good: Hearing that they and the Sinnekes are inclinable to a Warre w<sup>th</sup> the Indyns to the East, if soe, though they have not yet attack<sup>t</sup> us, 'tis the Opinion of my Councell, that 'twere well the said Maques were rather encouraged than hindred; and you may lett them have a ffree Markett for Powder &c. as formerly, continued.

Pray remember mee to all w<sup>th</sup> you. I hope my Brother, Knapton,<sup>1</sup> Sharpe,<sup>2</sup> &c. will bee here per first.

[Council Minutes, iii, Part 2, p. 68.]

At a Councell, Novber 8th, 1675.

Present, The Governour,

The Secretary,

Capt. Dyre,

Mr. Fred. Phillips.

The Matter under Consideracon was upon Occasion of Nehemiah Peirce and James Pennymans being sent downe from Albany by Capt. Brockholes, upon Suspicion of writing false Storyes to Boston.

Nehemiah Peirce being first examined saith, That he never hath writt to Boston of Powder sold to y<sup>e</sup> Indjans to y<sup>e</sup> Eastward, nor knows of any, but on the Contrary, having heard from y<sup>e</sup> Command<sup>r</sup> y<sup>t</sup> whosoever should sell any Powder to them if it could be discovered, y<sup>e</sup> Person or Persons offending should be severely punished. He saith y<sup>t</sup> hereupon he did forewarne many thereof as he had Opportunity, and had watch<sup>d</sup> some whom he did suspect, but never could meet with any Powder so sold.

Withall being demanded if he had not sold Powder himselfe, he saith yes, that he did sell some few Barrells, being all that he had, but it was to y<sup>e</sup> Christians.

Mr. Wilson. The said Peirce is ordered to be dismissed he giving Security to make his Appearance when called for, or to give Notice if he shall have Occasion to depart y<sup>e</sup> Governmt before a Returne from Boston about this Matter, from whence if nothing materiall shall come against him as to this Businesse, within three Months, then to be totally discharged and cleare.

James Pennyman being examined saith, that he knoweth no more, than what he hath set down in a Paper which he delivered in, it being a Recitall of y<sup>e</sup> Contents of a Letter to his Wife at Boston, which is as followeth, vizt :

To the Right Honored Governor.

If it may stand with your Honours Pleasure upon this Occasion I have recollectd my Memory and according to my best Remembrance, I shall give you y<sup>e</sup> true Contents of y<sup>e</sup> Letter as I wrote to my Wife, w<sup>ch</sup> as it is circumstanced it is by some counted

Matter of Fault, but when your Hon<sup>r</sup> has a View of it, I hope you will esteeme of it otherwise. My Wife has oftentimes when she wrote Letters to me sent me News in her Letters concerning the Warre, and att some Times how y<sup>e</sup> Enemy prevayles. I never received any News but I acquainted the Governor at Albany with it, and shew him my Letters; now that as I write to my Wife is as follows:

That when our hon<sup>rd</sup> Governor Gen<sup>l</sup> was here in Albany, there came two Men as Post from Major Pinchon of Springfield, which as I heard petitioned to our Governor that no Powd<sup>r</sup> should be sold in this Place, truly Wife what a vain Thing was that, for this Place is upheld by Trade, I believe there is two or three hundred Barrells of Powder bought and sold in this Towne in one Yeare, and I thinke there were sold out of my House twenty or thirty Barrells this Yeare, but as I heare our honoured Governor has laid a Restraint of selling to our Englishes Enemyes and that upon a great Penalty. This is y<sup>e</sup> Summe of what I writt, now if yo<sup>r</sup> Hon<sup>r</sup> be displeased at this as I writt, I rather choose to forbear writing to my Wife though I love

her as well as a Man can do his Wife, I say I rather  
doe it than gett your Honours Displeasure.

JAMES PENNIMAN.

his Security. ordered to find Security for his good  
Behaviour, and to make his Appearance when called  
for.

I have received yo<sup>r</sup>s of the 4<sup>th</sup> past, of your Progreſſe againſt the Indjans, which I with may have ended it, but am ſorry the Suiquehannas were concerned, having allwayes (as the Maques to this) had the Repute of being perfect friends to the Chriſtians, particularly Maryland; and being Offspringes of the Maques, though by the Sinnekes engaged in Warre, and the Indjans to the Eaſtward, ſee great Succeſſes in Plymouth and Maſſachuſetts Colonies having engaged all others their Neighbo<sup>r</sup>s and endeavoring by all Meanes of Command and Profit to engage the Maques and ſent to all other Parts as farre as Canada, w<sup>ch</sup> New England think doe ſupply their aid Enemyes, and all our Indjans as farre as Delaware, thought only to wait Opportunityes.

I heare that all New England have joyned a very great Force to fall on the Narragansett Indians, the Event whereof (w<sup>ch</sup> I hope good) will very much influence Things, and conduce to the Future or next Yeares Action, which is all in Addition to mine of y<sup>e</sup> 21<sup>th</sup> of October last.

*By the Governor :*

Whereas I am informed that several Indyans at Rockaway, Unchechauge and Parts adjacent, are in a few Dayes to have a great Kintecoy<sup>1</sup> at Seaquetalke, which being unusuall at this Time of Year, is at this Juncture in no Case to be neglected ; And

<sup>1</sup> "The Indians sometimes assemble in large Numbers and retire far into the Wilderness, where they eat and drink in a profuse Manner. These Conventions are called *Kenticoys*. Some esteem them to be debauched Revels or Bacchanalia, but those who have followed them into these Recesses give some Accounts of their Conduct as lead one to imagine that they pay a joint Homage and Supplication to some invisible Being." *Smith's Hist. of N. Y., Alb. Ed., p. 76.* This Term

was adopted by the Whites and is still used in the River Counties and on Long Island, to designate a *Revel*. A Description of the wild Excesses of the Indians at their "*Canticos*," is given by Denton, in his Description of their Customs, p. 9. Mr. Henry R. Schoolcraft in a Letter to the Editor, expresses the Opinion that this Custom was analagous to the modern *Wabiro*, the most vicious of Indian Orgies, the Name denoting that the Dancing is continued till Daybreak. — Ed.

therefore (by the Advice of my Councell) you are in his Maties Name hereby required upon Notice of the Time or Day the said Indyans Kintecoy is to bee, with six or more Men, not exceeding ten (as you shall judge fitt to bring Home their Armes) to repaire to Seaquatalke or Place where the above Kintecoy shall bee, sending two Men a little before, to give them Notice of your coming (that they bee not scared at your Arrivall) to informe yourselfe of what Indyans are there, and demand their Armes; which having rec<sup>d</sup> to warne and command them to separate, and each to repaire to their proper Place of Abode, and for the Future to forbear appointing or coming to any such public Meetings, or Kintecoies, w<sup>th</sup>out speciall Leave, and to bring away with you all their said Armes, w<sup>ch</sup> you are safely to lay up and keepe in your Towne, till further Order. But in Case the above Indyans should happen to be refractory, and refuse to deliver their Armes, you are (having taken the best Acco<sup>t</sup> or Notice you can from whence they are, their Number, &c.), to warne and command all their Sagamacks, w<sup>th</sup>out Delay, to repaire to mee at this Place, and all other Indyans Home, and so leave them. At yo<sup>r</sup> Return,

you are immediately to give mee a particular Acc  
of yo<sup>r</sup> Proceedings, according to the aboue; of  
which you are not to faile, as you will answer the  
Contrary at your Perills. And for so doing this  
shall bee to you, and every of you, a sufficient  
Warrant.

The following Record is, probably, a Copy of a Letter, addressed by the Court Martial to Walter Clarke, of Newport, the Governour.<sup>1</sup>

<sup>1</sup> Walter Clarke was a Friend, and with others of that Denomination, at that Time quite large on Rhode Island, was opposed to the War against the Indians. He felt a deep Interest in the Natives, and with his Friend John Easton, believed that the Calamities of King Phillip's War might have been prevented by a Negotiation or Arbitration. Walter Clarke is said to have incensed the People of Providence and Warwick, who were fierce to fight, by refusing to issue military Commissions, or in the Language of Friends, Commissions "to kill and destroy Men." It does not appear that he attended the Court Martial, and he probably,

refused to sit in Judgment on the poor persecuted and wronged Natives.

This Letter was probably addressed to Gov. Clarke, by the sitting Members of the Court Martial, viz: the Deputy Governour, Major John Cranston; seven out of the nine Assistants, viz: James Barker, Wm. Harris, Arthur Fenner, Joshua Coggeshall, William Cadman, Randall Houlden and Samuel Gorton, and probably the military Officers before mentioned. John Coggeshall, John Easton and Thomas Borden, were the remaining three Assistants. [D].
